## Information about Copyrighted Content

Some instruments administered for studies archived with ICPSR may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

### NOTICE

#### WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

**ICPSR PROCESSING NOTES FOR #34439**  
*Gates Millennium Scholars Program (GMS) Cohort 5, 2004-2009*  
*Freshman Survey – Public Use*

1. **Confidentiality/Disclosure Risk:**

- a. For values that were deemed as indirect identifiers or sensitive information (i.e., age, income, GPA) ICPSR used a series of data coarsening techniques to protect confidentiality. Examples include top-coding age and income. Other items were blanks in this public-use version such as IPEDS codes. For full access to these data a user must apply for and sign an ICPSR Restricted Data Use Agreement.
- b. The data files previously contained character (or string) variables. Some of these variables did not contain information in string format, but were numerical in nature. These variables were recoded to be in a numerical format. The remainder of the string variables have been masked by ICPSR to help preserve confidentiality. These too have been recoded to a numeric format and the values have been replaced with “MASKED BY ICPSR”.

2. **Restricted-Use:** The data are retained with their original detail in the Restricted Use (*DS2: Freshman Survey - Restricted Use*) data file.

3. **Sequential Record Identifier:** ICPSR created a unique sequential record identifier variable named **CASEID** for use with online analysis.

4. **Merged Data File:** The data included as part of this collection is a merged file that includes baseline, first follow-up, and second follow-up data. In order to facilitate the merging of data across the three data collection periods, ICPSR prepended a reference to the time period to the variable names. For example, all variables belonging to the baseline wave of data collection contain “**BL\_**” within the variable name. Similar revisions were made to the first and second follow-up waves of data collection. Additionally, ICPSR created the following variables to better facilitate researchers using this newly merged file. The variables were created with all five cohorts of respondents in mind.

**SURV\_PART**  
**BL\_MARKER**  
**FU1\_MARKER**  
**FU2\_MARKER COHORT**  
**TYPE**

5. **Weight Variables:** Please note, weight variables for Follow up 2 were not provided for this cohort.

6. **Census Codes:** Some variables reference industry and occupation codes from the 1990 Census. No documentation was provided to ICPSR to supplement these codes. Users are encouraged to visit the [United States Census Bureau](#) website for supplemental information.
7. **Undocumented Codes:** The variable **REC\_NREC** contains an undocumented value which ICPSR has labeled “Undocumented code.” Additionally, values of 0 and 1 in variables **FU2\_NOAPGRAD\_01** through **FU2\_NOAPGRAD\_18**, **FU2\_NEWTECH\_01** through **FU2\_NEWTECH\_18**, and **FU2\_WHYWORK\_01** through **FU2\_WHYWORK\_11** are contain no labels. No information was provided.
8. **Special Considerations:** Credits, grades, and GPA were reported in a wide variety of ways in the data; no effort was made to standardize or convert these numbers. Users should use caution when utilizing these variables in their research and/or analysis.
9. **Missing Values:** Missing values were standardized and assigned as per the study’s convention. The standardized missing values are as follows:

| Value | Value Label                                          |
|-------|------------------------------------------------------|
| -2    | Don’t know                                           |
| -3    | Invalid data                                         |
| -4    | Logical skip                                         |
| -5    | Missing data                                         |
| -7    | Refused to answer                                    |
| -8    | Not applicable                                       |
| -9    | Not applicable: did not participate during this wave |
| -10   | Not sure                                             |
| -11   | Refused                                              |
| -12   | _0                                                   |

10. **Related Data Collections:** This collection is related to five other Gates Millennium Scholars (GMS) studies, ICPSR in the [GMS](#) data series. For similar study information and characteristics, please refer to all studies.
11. **Additional Information:** For additional information on the Gates Millennium Scholars Program, please visit the [GMS](#) website.

## **Gates Millennium Scholars (GMS) Survey Data Cohort 5, United States, 2004-2009**

### **Variable Description and Frequencies**

**Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.**

**Summary statistics (minimum, maximum, arithmetic mean, median, mode, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.**

# Freshmen Survey - Public Use

## CASEID: Case Identification Number

Based upon 2,060 valid cases out of 2,060 total cases.

Location: 1-4 (width: 4; decimal: 0)

Variable Type: numeric

## SU\_ID: Respondent ID

| Value    | Label | Unweighted Frequency | %     |
|----------|-------|----------------------|-------|
| 50101010 | -     | 1                    | 0.0 % |
| 50101020 | -     | 1                    | 0.0 % |
| 50101030 | -     | 1                    | 0.0 % |
| 50101040 | -     | 1                    | 0.0 % |

|          | <b>Total</b> | <b>2,060</b>         | <b>100%</b> |

Please note that only the first 50 response categories are displayed in the PDF codebook. To view all response categories, please analyze the data file in the statistical package of your choice (SAS, SPSS, Stata, R).

Based upon 2,060 valid cases out of 2,060 total cases.

*Location:* 5-12 (width: 8; decimal: 0)

*Variable Type:* character

## SURV\_PART: Completion status throughout the study time period

| Value | Label                                                  | Unweighted Frequency | %           |
|-------|--------------------------------------------------------|----------------------|-------------|
| 1     | Baseline only                                          | 215                  | 10.4 %      |
| 2     | Follow-up number 1 only                                | 101                  | 4.9 %       |
| 3     | Follow-up number 2 only                                | 30                   | 1.5 %       |
| 4     | Baseline and follow-up number 1                        | 657                  | 31.9 %      |
| 5     | Baseline and follow-up number 2                        | 39                   | 1.9 %       |
| 6     | Follow-up number 1 and follow-up number 2              | 72                   | 3.5 %       |
| 7     | Baseline and follow-up number 1 and follow-up number 2 | 946                  | 45.9 %      |
|       | <b>Total</b>                                           | <b>2,060</b>         | <b>100%</b> |

Based upon 2,060 valid cases out of 2,060 total cases.

- Minimum: 1.00
- Maximum: 7.00

*Location:* 13-13 (width: 1; decimal: 0)

*Variable Type:* numeric

---

### BL\_MARKER: Completion status of the baseline survey

| Value | Label            | Unweighted Frequency | %           |
|-------|------------------|----------------------|-------------|
| 0     | Did not complete | 203                  | 9.9 %       |
| 1     | Completed wave   | 1857                 | 90.1 %      |
|       | <b>Total</b>     | <b>2,060</b>         | <b>100%</b> |

Based upon 2,060 valid cases out of 2,060 total cases.

- Minimum: 0.00
- Maximum: 1.00

*Location:* 14-14 (width: 1; decimal: 0)

*Variable Type:* numeric

---

### FU1\_MARKER: Completion status of the first follow-up survey

| Value | Label            | Unweighted Frequency | %           |
|-------|------------------|----------------------|-------------|
| 0     | Did not complete | 284                  | 13.8 %      |
| 1     | Completed wave   | 1776                 | 86.2 %      |
|       | <b>Total</b>     | <b>2,060</b>         | <b>100%</b> |

Based upon 2,060 valid cases out of 2,060 total cases.

- Minimum: 0.00
- Maximum: 1.00

*Location:* 15-15 (width: 1; decimal: 0)

*Variable Type:* numeric

---

### FU2\_MARKER: Completion status of the second follow-up survey

| Value | Label            | Unweighted Frequency | %           |
|-------|------------------|----------------------|-------------|
| 0     | Did not complete | 973                  | 47.2 %      |
| 1     | Completed wave   | 1087                 | 52.8 %      |
|       | <b>Total</b>     | <b>2,060</b>         | <b>100%</b> |

Based upon 2,060 valid cases out of 2,060 total cases.

- Minimum: 0.00
- Maximum: 1.00

*Location:* 16-16 (width: 1; decimal: 0)

*Variable Type:* numeric

---

## COHORT: Indicator of what cohort the respondent is a part of

| Value | Label                          | Unweighted Frequency | %           |
|-------|--------------------------------|----------------------|-------------|
| 1     | Cohort number 1 - freshman     | 0                    | 0.0 %       |
| 2     | Cohort number 1 - non-freshman | 0                    | 0.0 %       |
| 3     | Cohort number 2 - freshman     | 0                    | 0.0 %       |
| 4     | Cohort number 3 - freshman     | 0                    | 0.0 %       |
| 5     | Cohort number 5 - freshman     | 2060                 | 100.0 %     |
| 6     | Cohort number 9 - freshman     | 0                    | 0.0 %       |
|       | <b>Total</b>                   | <b>2,060</b>         | <b>100%</b> |

Based upon 2,060 valid cases out of 2,060 total cases.

- Minimum: 5.00
- Maximum: 5.00

*Location:* 17-17 (width: 1; decimal: 0)

*Variable Type:* numeric

---

## TYPE: Indicator of the type of student the respondent is

| Value | Label                  | Unweighted Frequency | %           |
|-------|------------------------|----------------------|-------------|
| 1     | Freshman               | 2060                 | 100.0 %     |
| 2     | Non-freshman undergrad | 0                    | 0.0 %       |
| 3     | Graduate student       | 0                    | 0.0 %       |
|       | <b>Total</b>           | <b>2,060</b>         | <b>100%</b> |

Based upon 2,060 valid cases out of 2,060 total cases.

- Minimum: 1.00
- Maximum: 1.00

*Location:* 18-18 (width: 1; decimal: 0)

*Variable Type:* numeric

---

## PL\_2: Preload population type

| Value | Label                                        | Unweighted Frequency | %     |
|-------|----------------------------------------------|----------------------|-------|
| 1     | 2000 freshman recipients                     | 0                    | 0.0 % |
| 2     | 2000 continuing undergraduate recipients     | 0                    | 0.0 % |
| 3     | 2000 graduate recipients                     | 0                    | 0.0 % |
| 4     | 2001 freshman recipients                     | 0                    | 0.0 % |
| 5     | 2000 freshman non-recipients                 | 0                    | 0.0 % |
| 6     | 2000 continuing undergraduate non-recipients | 0                    | 0.0 % |
| 7     | 2000 graduate non-recipients                 | 0                    | 0.0 % |
| 8     | 2001 freshman non-recipients                 | 0                    | 0.0 % |

| Value | Label                        | Unweighted Frequency | %           |
|-------|------------------------------|----------------------|-------------|

## FU1\_FA06OTHR: FU1\_FA06OTHR: Enrolled elsewhere fall 2006

The first set of questions are about your enrollment in college.

If you were not enrolled in [your current/last college or university] during Fall 2006, were you enrolled somewhere else that semester?

[If FA06OTHR=2,3 skip to SP06COLL]

| Value | Label                                                       | Unweighted Frequency | %           |
|-------|-------------------------------------------------------------|----------------------|-------------|

## FU1\_APPYCO: FU1\_APPYCO: First graduate major applied

The first set of questions are about your enrollment in college.

What was the first concentration you applied to for graduate school?

College major code from APPYCO or coded OTHRAP. First grad major applied.

[If NOGRDFDA < 2 skip to NUMFLD]

## FU1\_SCHLSUPP: FU1\_SCHLSUPP: Anyone at school interested in your work

We would like to learn more about students' experiences while enrolled in college, and how they feel about these experiences.

While you were an undergraduate, did anyone associated with your school, other than your fellow students, take a special interest in you or your work - that is, was there someone you could turn to for advice or for general support or encouragement?

[If SCHLSUPP = 2,3 skip to CARTEACH]

## FU1\_MINRACE: FU1\_MINRACE: Minimize race characteristics

The next questions are about the social climate at the school you attended.

Please indicate to what degree you agree with the following statement:

I feel I need to minimize various characteristics of my racial/ethnic culture (e.g. language, dress) to be able to fit in here.

[If MINRACE = 1,2,3 skip to SENSETHI]

| Value | Label                                                       | Unweighted Frequency | %           |
|-------|-------------------------------------------------------------|----------------------|-------------|
| 1     | Strongly disagree                                           | 602                  | 29.2 %      |
